

IFC-2403

Smash brick free toughened membrane transparent waterproof adhesive (single component)

Technical Data Sheet

Name: IFC-2403

Revision Date: 2023-08-07

Version:1.3

Product Description

IFC-2403 adopts special polymer copolymer as the base material, and is refined through multiple modification additives. It has a wide range of uses, easy to use, excellent performance, wear-resistant and tread-resistant, and after the curing of the coating film can form a solid toughened film on the surface of ceramic tiles, cement or other substrates to prevent the penetration of water.

Properties

1. The product is colorless, transparent, non-yellowing and non-sticky after painting, and perfectly combines with the original substrate after film formation.
2. It is resistant to aging, ultraviolet rays, acids and alkalis, high and low temperatures.
3. It has high tensile strength, strong adhesion, and tough and wear-resistant coating.
4. The product is easy to construct, water-based and environmentally friendly, safe to operate, and can be applied by brush or roller.

Application

IFC-2403 can be widely used in the washroom, kitchen and bathroom, balcony, drinking water pool, landscape pool and other types of buildings wall, ground leakage repair; all kinds of internal and external wall decorative materials surface and joints of waterproofing, moisture-proofing, all kinds of waterproofing and coating of the surface of the protective layer and so on.

Storage

The product should be stored in dry condition between 0~35°C with the integrity of the packaging, and prevented from direct sunlight. The validity of this product is for 18 months, performance assessment is recommended before use after shelf life. The product should be protected from freezing during storage. It is suggested to filter before application and use up once the package is open.

Disclaimer

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions. We also suggest that you contact the suppliers of other materials used in our recommended
