

IFC-2902

Vinyl Acetate-ethylene Copolymer

Technical Data Sheet

Name: IFC-2902

Revision Date: 2023-08-04

Version:1.3

Product Description

IFC-2902 is a milky latex, it is a wonderful adhesive used widely with high performance and low cost. It has wonderful binding character to different substrates and stable compatibility with kinds of additives.

Properties

1. Good binding performance
2. Stable compatibility with additives

Characteristic data*

Property	Value	Unit
Nonvolatile matter	$\geq 55 \pm 1$	%
PH	5 ± 1	
Viscosity (25 °C)	1500-2500	cps
Tg	12	°C

*These properties are typical but do not constitute specifications.

Storage

The product should be stored in dry condition between 5~37°C with the integrity of the packaging, and prevented from direct sunlight. The validity of this product is for 6 months, performance assessment is recommended before use after shelf life. The product should be protected from freezing during storage. It is suggested to filter before application and use up once the package is open.

Disclaimer

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions. We also suggest that you contact the suppliers of other materials used in our recommended formulations and consult appropriate health and safety regulations prior to use.
