

Styrene-acrylate copolymers for one-component waterproof coatings

Technical Data Sheet

Name: IFC-2938 Revision Date: 2023-08-04

Version:1.3

Product Description

IFC-2938 is especially designed to be applied to one-component waterproof coatings. It is a low odor, high elasticity, high molecular weight styrene-acrylate copolymer. IFC-2938 has a special molecular structure with excellent tensile properties, and the hydrophilic structure and components in the emulsion are strictly controlled, so it has excellent water resistance and outstanding performance in wet adhesion. This product does not contain APEO, and no formaldehyde is artificially added, low odor, is an environmentally friendly product.

Properties

- 1. Low odor
- 2. High elasticity
- 3. Excellent adhesion
- 4. Excellent water resistance

Characteristic data*

Property	Value	Unit
Туре	Styrene-acrylate copolymer	
Appearance	Milky white & bluish liquid	
Solid content	50±1	%
Viscosity	800-3000	mPa.s
РН (25°С)	7.0-9.0	
Particle diameter	100-200	nm
MFFT	0	°C

*These properties are typical but do not constitute specifications.

Storage

The product should be stored in dry condition between 5~35°C with the integrity of the packaging, and prevented from direct sunlight. The validity of this product is for 6 months, performance assessment is recommended before use after shelf life. The product should be protected from freezing during storage. It is suggested to filter before application and use up once the package is open.

IFC-2938

Disclaimer

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions. We also suggest that you contact the suppliers of other materials used in our recommended formulations and consult appropriate health and safety regulations prior to use. The information contained herein is believed to be reliable. However, nothing in this technical sheet should be considered as a representation of warranty, express or implicit, regarding the product characteristics, application, quality, safety, merchantability or fitness for a particular purpose. Nothing contained herein is to be considered as permission, recommendation, nor as an inducement to practice any patented invention without permission of the patent owner.
