

# IFC-3202

Acrylic copolymer emulsion

## Technical Data Sheet

Name: IFC-3202

Revision Date: 2023-08-04

Version:1.3

### Product Description

It is an acrylic emulsion designed for wood coatings, no alkyl phenyl ethoxylate (APEO) and formaldehyde. Biocide: CMIT/MIT 3:1 10ppm, and MIT 200ppm.

### Properties

1. Fine particle size and good clarity
2. Outstanding early water resistance
3. Fast drying and good stack ability
4. Good building up property

### Characteristic data\*

| Property      | Value                      | Unit  |
|---------------|----------------------------|-------|
| Appearance    | Translucent to milky white |       |
| PH            | 8±1                        |       |
| Viscosity     | 10-200                     | mPa·s |
| MFFT          | 32                         | °C    |
| Solid content | 40±1                       | wt%   |

\*These properties are typical but do not constitute specifications.

### Storage

The product should be stored in dry condition between 5~35°C with the integrity of the packaging, and prevented from direct sunlight. The validity of this product is for 12 months, performance assessment is recommended before use after shelf life. The product should be protected from freezing during storage. It is suggested to filter before application and use up once the package is open.

Well filtration before using is necessary as normal water based binder.

## **Disclaimer**

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions.
