

Weather-resistant liquid tear-off protective film

## **Technical Data Sheet**

Name: IFC-7100 Revision Date: 2023-08-04

Version:1.3

### **Product Description**

IFC-7100 is a water-based one-component environmentally friendly peelable coating, mainly used for temporary protection of high-end metal, plastic, ceramic, lacquer, glass and other non-absorbent substrate products from moisture corrosion, mechanical scratches, dust pollution, minor acid and alkali corrosion and other physical and chemical damage.

#### Properties

1. Construction is simple and convenient, workers do not need training, directly brush, roll, spray can

- 2. High strength paint film, no breakage in peeling process
- 3. hydrophobic surface, good water resistance
- 4. Strong ability to block moisture, rain and dust
- 5. Water-based environmental protection and low odor, good worker experience
- 6. high transparency, you can see through to check the state of the workpiece

#### Characteristic data<sup>\*</sup>

Property	Value	Unit
Appearance	Blue or colourless gelatinous liquid	
Viscosity	1000-3000	
PH (25℃)	6.0-8.0	
Solid content	42.0±2.0	%

\*These properties are typical but do not constitute specifications.

#### Storage

The product should be stored in dry condition between 5~35°C with the integrity of the packaging, and prevented from direct sunlight. The validity of this product is for 6 months, performance assessment is recommended before use after shelf life. The product should be protected from freezing during storage. It is suggested to filter before application and use up once the package is open.

# IFC-7100

#### Disclaimer

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions.
