

# IFCA-916

Highly effective defoamer

## Technical Data Sheet

Name: IFCA-916

Revision Date: 2023-08-04

Version:1.3

### Product Description

IFCA-916 is a mineral oil hydrophobic vapor phase silica and modified polyether defoamer, widely used in aqueous coating systems based on phenylpropylene emulsion, silicone-propylene emulsion, pure propylene emulsion, vinylpropylene vinylbutadiene emulsion, etc. It is suitable for polyvinyl alcohol adhesives. It is suitable for polyvinyl alcohol adhesives.

This product has excellent defoaming and foam inhibition effect on water-based coatings, excellent compatibility, strong persistence of defoaming, no adverse effects on the coating system, high safety, no adverse effects on the gloss.

### Application

Water-based adhesives, water-based varnishes, water-based inks, interior and exterior wall latex paints, leather coatings, other water-based systems

### Characteristic data\*

Property	Value	Unit
Appearance	Amber turbid liquid	
Chemical composition	Nonionic	
Active Ingredients	100	%
PH	7.0	
Specific gravity	0.9	
Water dispersibility	Easily dispersed in water	
Flash point	195	°C

\*These properties are typical but do not constitute specifications.

### Recommended dosage and usage

1. It is recommended to add 0.2-0.6% of the quality of the paint.
2. It is recommended to add 1.0-1.5 ‰ for pulping section, and add 1.0-1.5 ‰ for paint mixing section.

## IFCA-916

3. Please mix well before use, even if the surface is not layered.
4. Long-term storage may be layered, mix well and use, does not affect the effect.

### **Storage**

1. 25kg plastic drum.
2. This product should be sealed, placed in a cool, dry and ventilated place, long-term storage will occur slight delamination, should be shaken well before use.

### **Disclaimer**

Foshan Shunde Infinechem Co., Ltd. recommends that customers should check with Materials Safety Data Sheet (MSDS) for details about safety instructions. We also suggest that you contact the suppliers of other materials used in our recommended formulations and consult appropriate health and safety regulations prior to use.
